

One of the Most Sacred Things in Life

Is that little band of gold which signifies marriage. To the bride, it is the key to all happiness in the world—her constant companion through life. What a sense of satisfaction to him who sells a wedding ring, well knowing that years hence, the same hand withered with age, will wear his ring exhibiting little signs of wear. To the jeweler who sells this ring comes the respect and confidence so essential to success in this particular field of endeavor. No ring contains gold so thoroughly wrought, so thoroughly worked on the grain to withstand wear, as does this ring. We have the Engagement Ring, the Wedding Ring, the Birthday Ring, the Baby Ring. In fact all kinds of rings. Let us show you.

Employ Engineer to Make Estimate.

At the meeting of the Chamber of Commerce Wednesday evening R. H. Willis, a well known irrigation engineer, was employed to make an estimate of the cost of putting the big south side ditch—which has been abandoned for a number of years—in operative condition. The cost of this estimate will be \$150 and the Chamber of Commerce will pay the bill. Not only will this estimate be made, but other matters such as obtaining the actual acreage under the ditch and the owners thereof, the legal steps necessary for the formation of a district, should such be desired, and the proper protection of the water appropriation, will be made at the expense of the Chamber of Commerce.

When all this data has been obtained and work completed, the facts will be presented to the land owners and they can then determine whether they desire to organize a district and vote bonds to obtain the funds with which to put the canal in running condition.
